

Suzie the Snowflake

After reading the story, Drippy the Raindrop, our class wrote our own story based on this book.

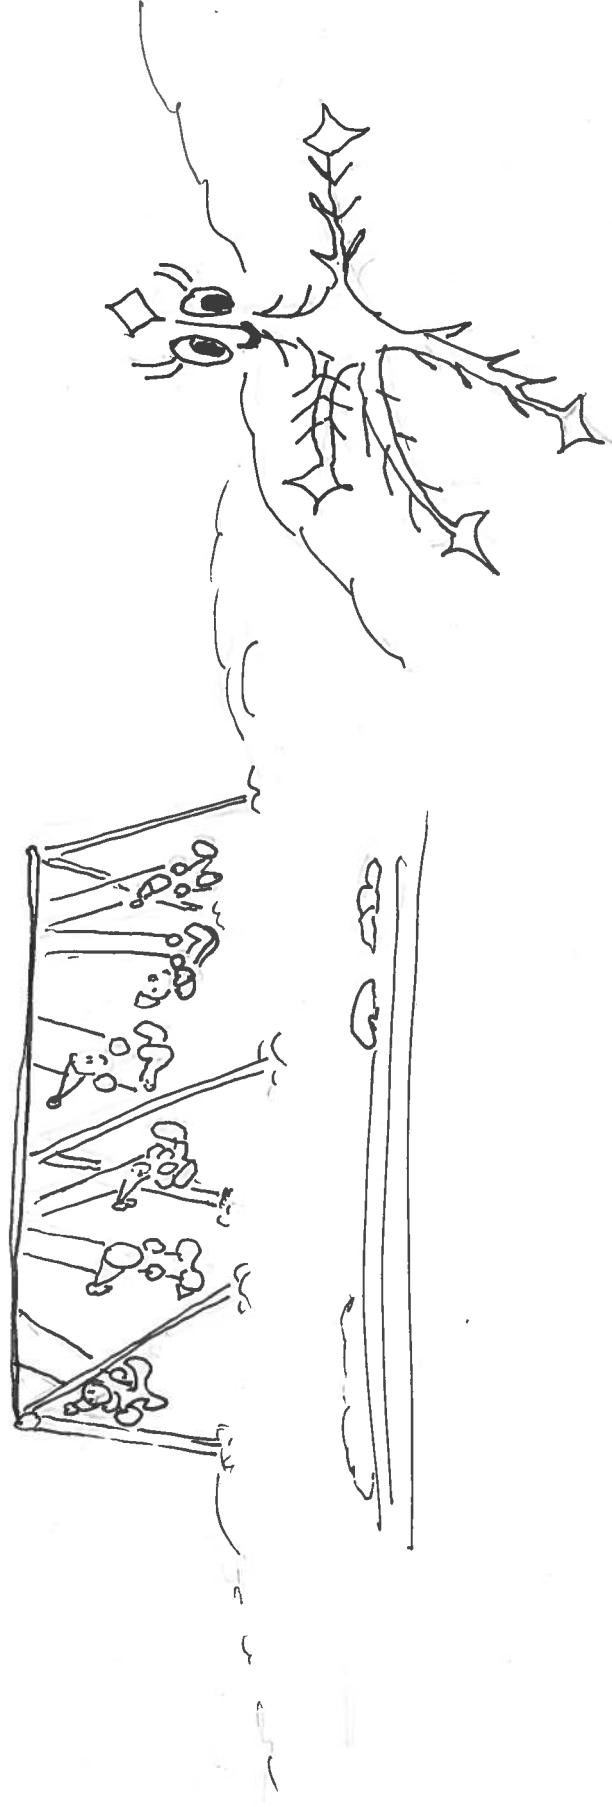

Read our story to find out what happens to Suzie as she travels through the exciting water cycle!

Story Written by:
Ms. McCarthy's Second Graders

Illustrated by:
Grandpa Erich

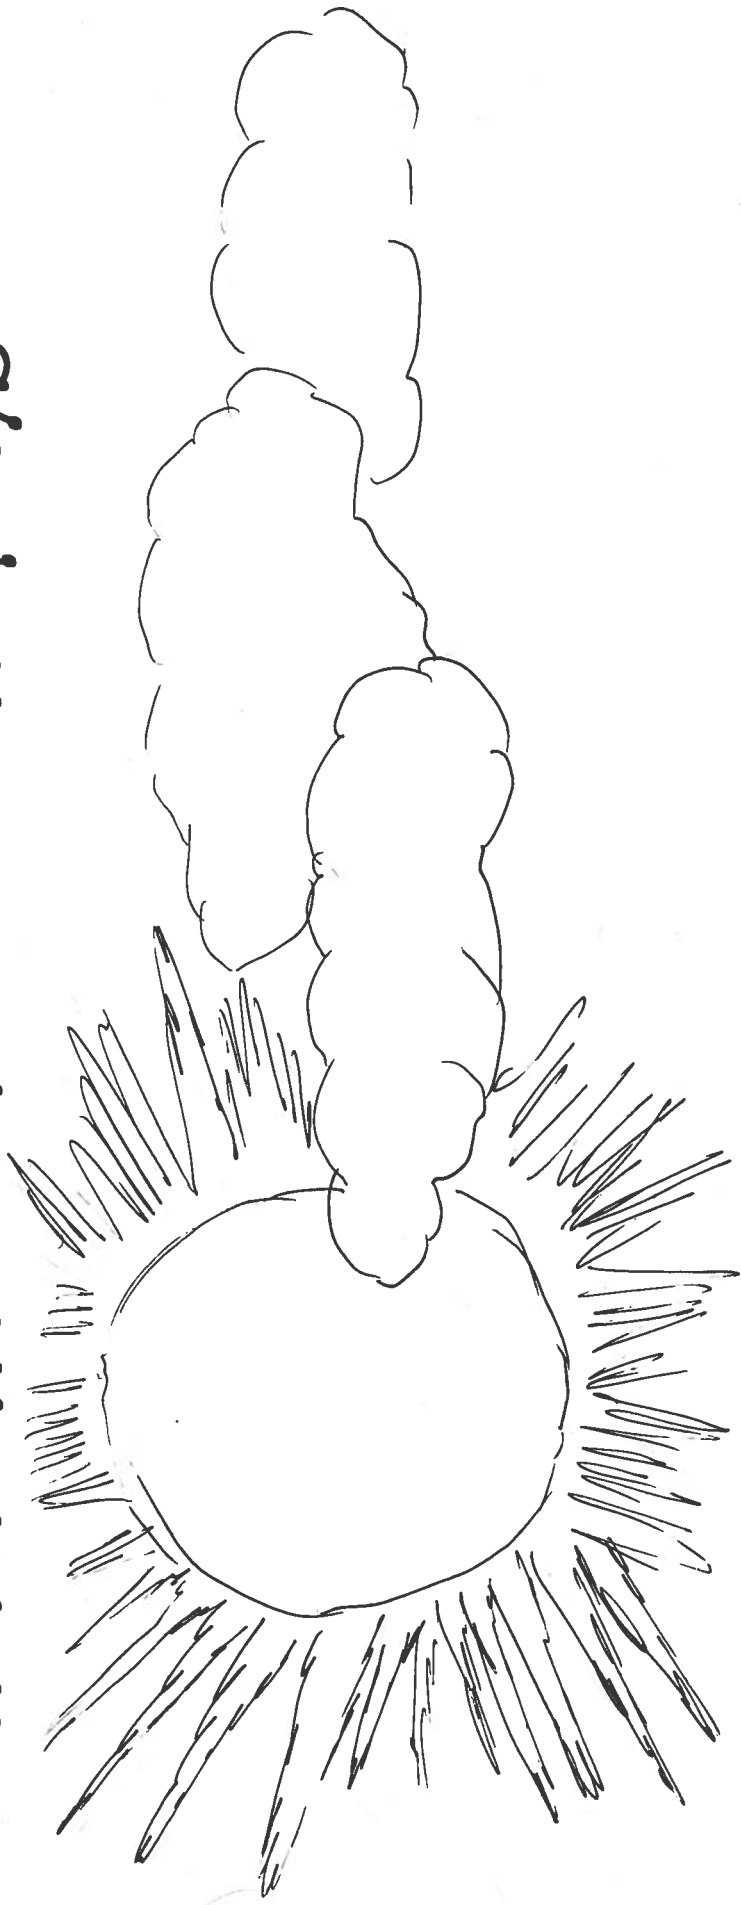

Suzie the snowflake was sitting
outside on the playground at West
Haverstraw Elementary School.

All around her there were kids making
snow angels and having snowball
fights!

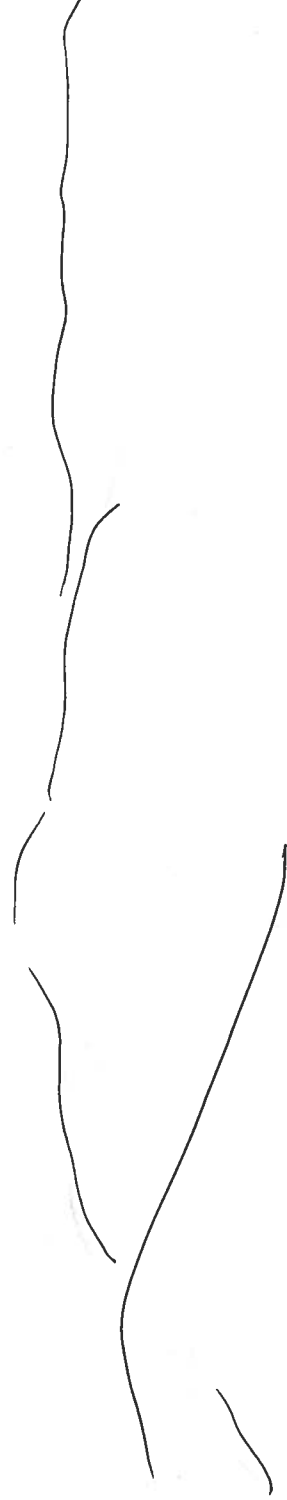

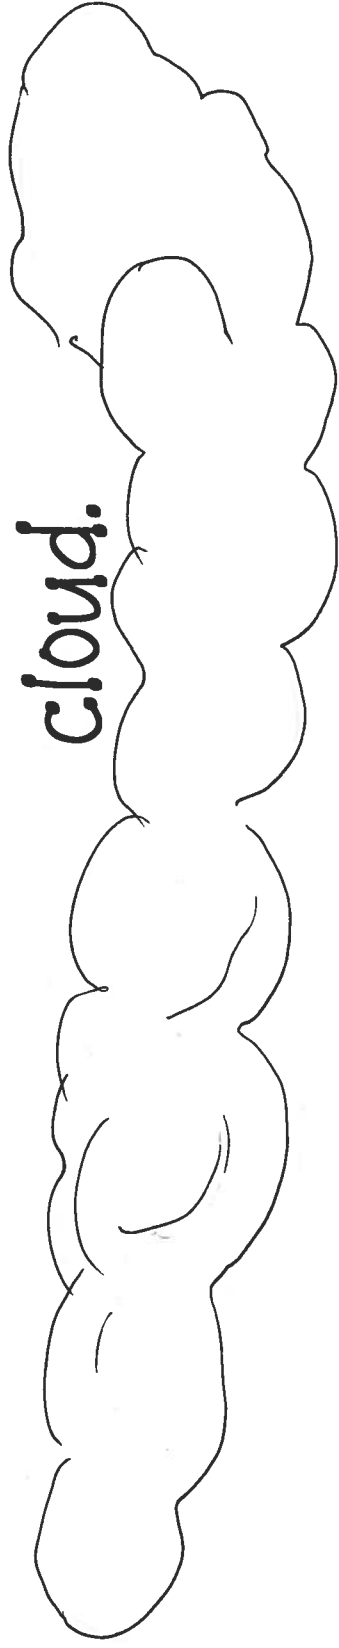

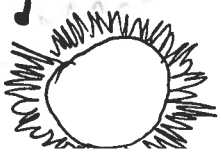

After lunch, the sun starts to come out. It shines all over the playground.

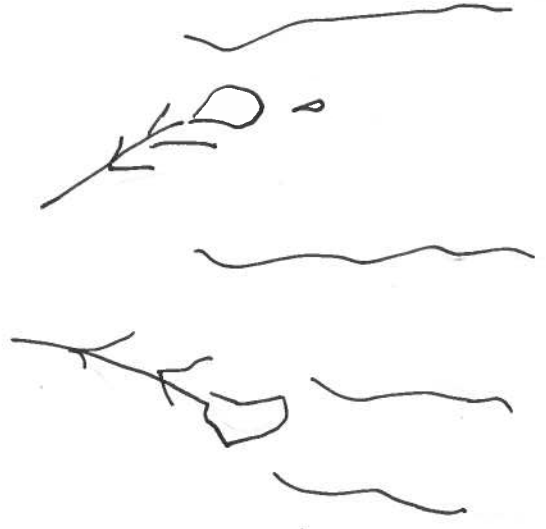

Suzie starts to get very hot! She looks
up in the sky and sees a cloud. Suzie
thinks that it might be cooler in the

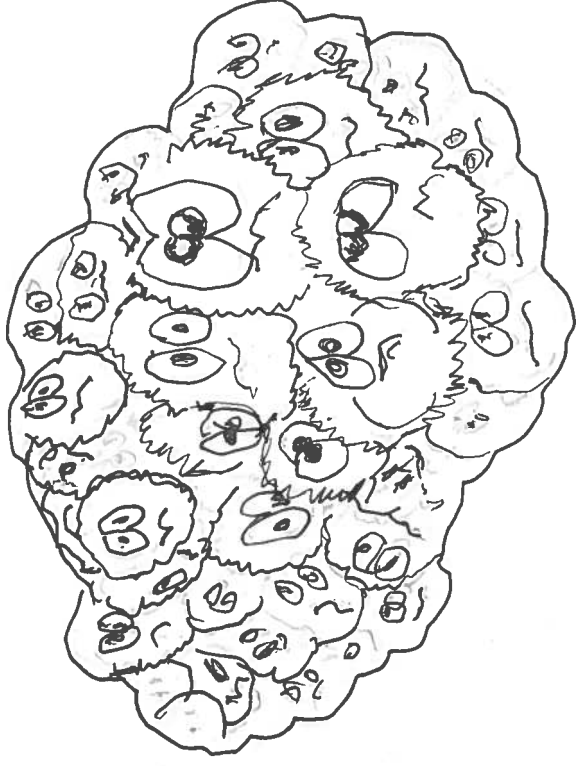

cloud.

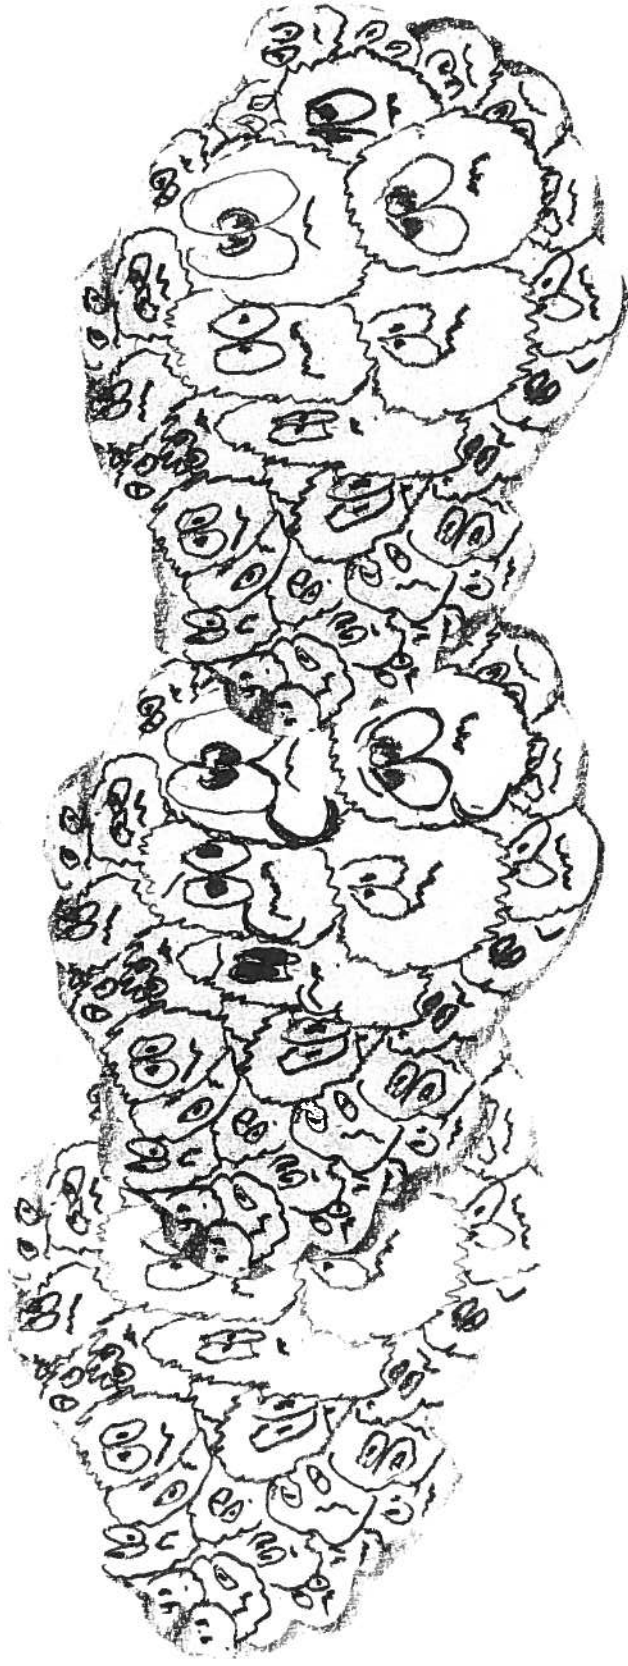

Then, all of a sudden, she starts to
evaporate! She is invisible as she
travels up into the sky.

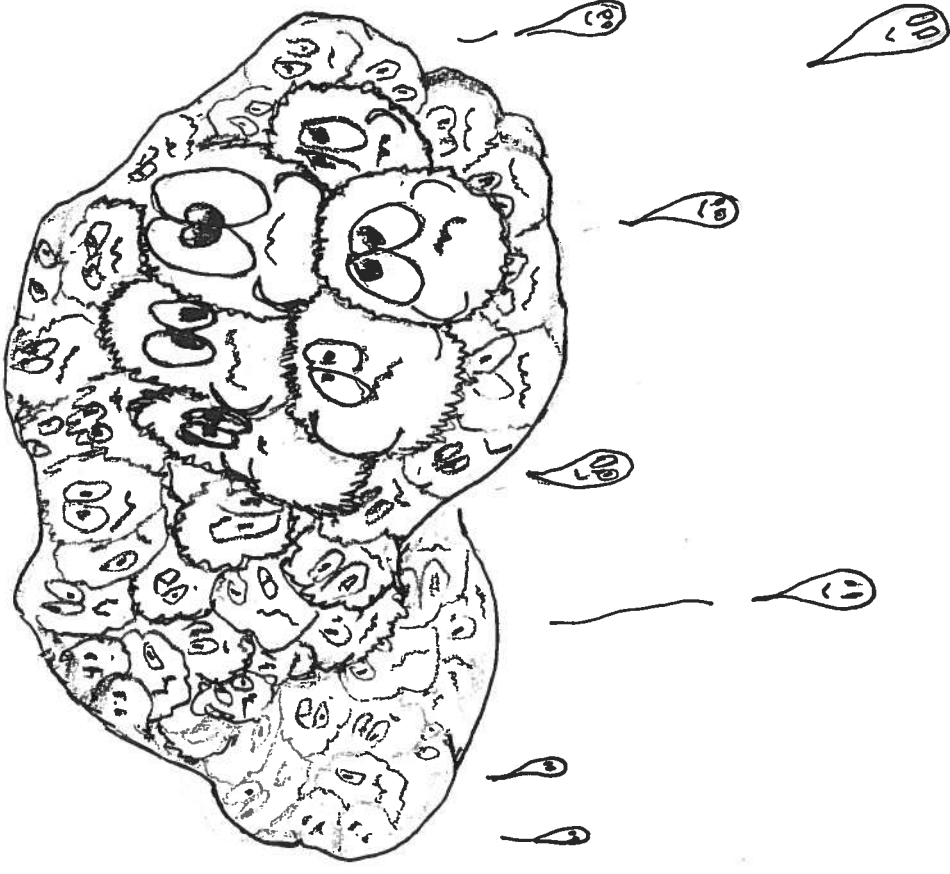

Suzie finds it very cold up there! To
stay warm, Suzie and her friends
squeeze together inside the cloud.

More and more of Suzie's friends come
into the cloud. The cloud gets very
heavy!

When the cloud can't hold them
anymore, it has to let them go. Suzie
and her friends fall out of the cloud as
precipitation.

Since it is so cold out, Suzie turns back into a snowflake. She falls back to the

ground.

Suzie softly lands back outside on the
playground at West Haverstraw
Elementary School.

Suzie had a great time going through
the water cycle. She can't wait to go
again!
